

Dear colleagues,

The University of Southern Denmark has opened a **PhD position on “Developing models for assessing production and release of odour from stored animal slurry”**.

More information can be found:

http://www.jobs.sdu.dk/vis_stilling.php?id=5489&lang=eng

In order to have as many qualified candidates as possible, I would like you to consider this call and forward it to any potential applicant that could be interested in applying.

Thank you in advance,

Best regards

Victoria Blanes-Vidal
